To: craig parker &lt;craigparkermd@gmail.com&gt;

Codes specifying the the type of Vision Prescription Observation that is being described. Some sample codes include:

Sphere – corresponding value would be a real number like 4.50

Cylinder – corresponding value would be a real number like 4.50

Axis - corresponding value would be a real number like 4.50

Prism - corresponding value would be a real number like 4.50

Prism Base – corresponding value would be one of the four following types : UP, DOWN, IN, OUT

Add – corresponding value would be an integer like 100
